Event Name: Design Thinking Workshop

Venue: Sardar Patel Institute of Technology , Bhavans Campus, Andheri West, Mumbai

Date: 02-11-2019

When it comes to jobs, the popular opinion is that your skills reign supreme. Sure they do but is that all that matters? In order to excel one also needs to possess other interpersonal skills. Thus, to help SPITians grow in all aspects of personality, Activity Based Learning was induced.

Students Made a prototype of their projects for Design Thinking Activity

The Design Thinking Workshop was held on November 2nd, 2019. Third Years had Design Thinking, emotional intelligence and work ethics. They were asked to present their ideas and prototype based on what they learned during these workshops. To make learning fun, they were supposed to perform a skit on the following topics:

- Creative Thinking
- Diversity
- Workplace Etiquette

These performances were judged by esteemed guests - Sameer Shah and Bipasha Roy. The teams for these activities were chosen randomly. Due to this students had the opportunity to work with a diverse set of people. Each team pitched their idea beautifully. The ideas were innovative and the judges gave their valuable inputs. Some of the teams went the extra mile and made a working prototype of their ideas. The teams were graded accordingly and awarded certificates.

This activity served as a break from the monotony of the college routine and a great tool for the overall personality development.

Judges and Faculty giving feedback to students.
