### Event Summary Report

Program driven by: IIC

Program /Activity Name: Lean Start-Ups & MVPs

Venue: Gmeet

Date: 27th August, 2022.

In a world desiring for startups, to guide the students of S.P.I.T. on the hub of innovation and reduce the risk associated with introducing a new unique product, IIC S.P.I.T organized an exclusive webinar on Lean Start-Ups and MVPs by Prof. Renuka Pawar.

The webinar enhanced the knowledge of students with principles of lean startup and the difference between the traditional product development and product development at lean startup. It helped the students to understand how to combine design thinking, lean startups and agile to ensure the success of their product in future.

The session also provided information about MVP that is Minimum Viable Product, the quality principle of MVP followed by the advantages of MVP Development. It gave a clear idea to students on what is MVP and what is not.

The session was successful in helping the students to improve their entrepreneurial skills and make their innovation an asset.

The screenshot shows a Zoom meeting interface. The main content is a presentation slide titled "Combine Design Thinking, Lean Startup and Agile" by Gartner. The slide features a circular process diagram with three main phases: DESIGN THINKING (Empathize, Define, Ideate), LEAN STARTUP (Try experiments, Measure, Build), and AGILE (Sprint planning, Product backlog, Sprint execution, Sprint review, Shipable increment). The diagram is plotted on a graph with "Abstract" on the y-axis and "Concrete" on the x-axis. The process starts with "Customer PROBLEM" and ends with "Customer SOLUTION".

On the right side of the Zoom window, there is a grid of participant avatars. Visible participants include Kinnari Shah, Sakshi Dhenge, Renuka Pawar (who is presenting), Uthkrisht Narayan, Yash Kamble, Karthik Iyer, and 18 others. At the bottom of the Zoom window, the time is 5:35 PM and the user ID is suz-cykk-whg.
