Institution's Innovation Council

Bhavans Campus, Old D N Nagar, Munshi Nagar, Andheri West, Mumbai, Maharashtra 400058

Event Summary Report

Program driven by: IIC Driven Activity

Program /Activity Name: Product Development Phases - Story Telling - (Innovators in Campus)

Event Name:Product Development Phases - Story Telling - (Innovators in Campus)

Venue: Sardar Patel Institute of Technology , Bhavans Campus, Andheri West, Mumbai

Date: 7th November, 2019

Participants at product phase development talk by faculty mentor

Students, helped by faculty, developing innovative products

The IIC and EXTC departments of the college collaborated to organise a Story Telling Workshop. Our faculty mentor Prof. Kaiser Katchi of the ASH department enlightened the students on the creative aspect of a prototype and how it helps in making a successful product.

The talk also emphasised phase development and the changes in a particular product so that it copes up with the existing market.

The third year students of the EXTC department attended the talk and developed a product over a span of three months. The faculty mentors helped and guided the students through their difficulties. Students came up with innovative and useful solutions through their product. As a part of the final day evaluation the students were required to put forward their idea with an accompanying presentation in front of a panel of judges. The judges helped them find certain shortcomings (if any) and suggested them some improvements which would help make the product technically sound. Coupled with this, the students also made a research paper adhering to the IEEE format.
